PUBLIC LIBRARY

The Work of Improvement Has Begun in Good Earnest

The Library Committee appointed by Council at its last meeting held its first session yesterday afternoon.

After a general survey of the premises and noting the essential and immediate requirements of the building and grounds, the Committee wisely and almost as a whole adopted the suggestions of THE LEDGER as set forth in its columns several weeks ago.

A veranda extending the entire front of the building, with colonial columns, asphalt pavement, iron fence and the yard set with flowers, shrubbery and grass was practically agreed

The building and grounds are in a dijapidated ondition; in fact, had the improvement been delayed much longer the roof would have given way; as it was, the matter was taken up just in time to avoid an expensive disaster.

It is best that the welfare of the institution has been transferred to the city, and now that it has full control of the matter, it is expected Mr. Thomas M. Russell was elected Junior that the City Fathers will make it the most popular resort in the city for the young folks-At goes without saying that the Maysville dele- such an institution as its founders intended it

MAYBE, if the Maysville Cemetery Company will spend a few dollars for improvement, its "surplus" will not have so much attraction for the Auditor's Agent.

If present ideas are carried out, an octagon Chapel will occupy the site of the big willow on the Kenton Mound in the Maysville Cemeterv. It would be better if the two Corporations would unite; but one is not obliged to wait because the other won't.

Just as if the little Japs were not putting them out of business fast enough, the other day a blundering Russian officer got so thoroughly "rattled" that he ordered a sortie on a body of his own men, killing 180 of them before he could bite off the command to stop shootingoffski.

During the rebuilding of the Opera-house, THE LEDGER urged the Public Library officials to open a way through the latter property into the old Presbyterian Graveyard in the rear of the Opera-house; to have the tombstones restored, walks made, seats placed, and to change it from a thicket to an attractive clearing. There are grand old trees; besides, the real pioneers of Maysville lie buried there, including the city's first Mayor; and now it pleases THE LEDGER to learn that there is a prospect of having its suggestions carried out by the new management of the Library. What a lovely spot it can be made by the expenditure of \$100, and how well the money would be spent!

Work in the Cemetery should be of the most enduring character; you'll abide there longer than elsewhere.

THE ordinance carrying into effect the provisions of the Amendment to the Constitution, by which a license system of taxation will take

the place of the present one in Louisville, is now being The New prepared by the Taxing System. Mayor and the City Assessor. It will be

completed within the next few weeks and will then be passed by the General Council. The new plan of taxation will not be put into effect until after September 1st, but everything will be prepared for the change some time before

It will be necessary to specify in the ordinance the exact ad valorem tax which each particular kind of business must pay and whether or not this tax shall be graded according to the amount of business done. The new system of taxation will apply to business houses only, and will, in the main, affect only the wholesale dealers, it being for them that it was adopted. Instead of paying taxes on the stock used in a factory, the amount of business done each year will be taxed a certain percentage, and this will be in lieu of all taxes.

Saloons will probably be required to pay the same license that is now collected, and instead of paying taxes on stock will pay an ad valorem tax. It is expected that the new system will result in great advantage to the city and will stimulate the addition of factories.

As THE LEDGER pointed out when this Amendment was before the people for adoption, the "license" plan is what has made Philadelphia one of the greatest mercantile and manufacturing cities in the world; and it will do, in equal ratio, for Maysville and other Kentucky cities what it has done for Philadelphia.

Save Your Daughter

No. 185 West 88th Street, New York Crry, N. Y., April 8, 1903. Wine of Cardui has been a blessing to my home. I have often found that it was a great relief when I was weary or in pain, but I am especially grateful for what it did for our daughter and only child. I noticed that her menses were tardy and she suffered with headaches and giddiness, heaviness in the abdomen and about the loins. This seriously interfered with her studies and she had to discontinue several of them.

of them.

A visitor calling on me and discussing the matter suggested that I give her a course of your Wine of Cardui as it had relieved her daughter of a similar trouble. After my daughter had used it for five weeks I found a great improvement in her looks, health and behavior, in fact she was a different girl. The flow became regular and we have not had any difficulty since.

Here the menstrual function had not been properly started and the unnatural condition was making the young girl an invalid. The headaches and giddiness, indicated something more than a mere temporary ailment. They were symptoms of a functional weakness which would become more and more aggravated as years went by. But Mrs. Thompson was ready to take advice for her daughter's welfare and she gave the little sufferer Wine of Cardui and now she is a well young woman. now she is a well young woman.

If your daughter is sickly and frequently ailing the letter of this good mother contains the best advice you can follow.

Wine of Cardui is the menstrual regulator that cures nine cases out of very ten. Young girls, mothers and aged women find this tonic indispensable.
